

High Performance System Protection

- Removes sludge and scale
- High volume dirt capacity
- Part L & Chemical packs available

BoilerMag®
Dual Flow System Filter

www.boilermag.com

INSTALLS IN MINUTES PROTECTS FOR YEARS

Combining high performance with ease of installation and servicing, BoilerMag uses tried and tested patented magnetic technology to remove virtually 100% of magnetite (sludge) and scale on the first pass through the filter.

Featuring “Dual Flow” technology it is the perfect choice for domestic installations.

- Any direction install (pipework or filter)
- 22mm and 28mm versions available
- High volume collection capacity
- High performance dirt removal
- Easy “in-line” installation
- No block feature
- 3 year warranty

GETTING TO KNOW YOUR BOILERMAG

BoilerMag is designed for performance and practicality. The illustration below highlights the key features for installers, service contractors and property holders.

- 1 Simple flush access point - flush attachment available separately

- 2 Air vent/chemical dosing point

System Flushing

- 3 360° Adjustment - allows installation at any angle either pipework or filter

- 4 Requires minimal access space - unit does not have to be fully removed from pipework

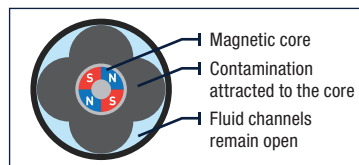

- 5 High quality isolation valves included

- 6 Easy "In-Line" installation

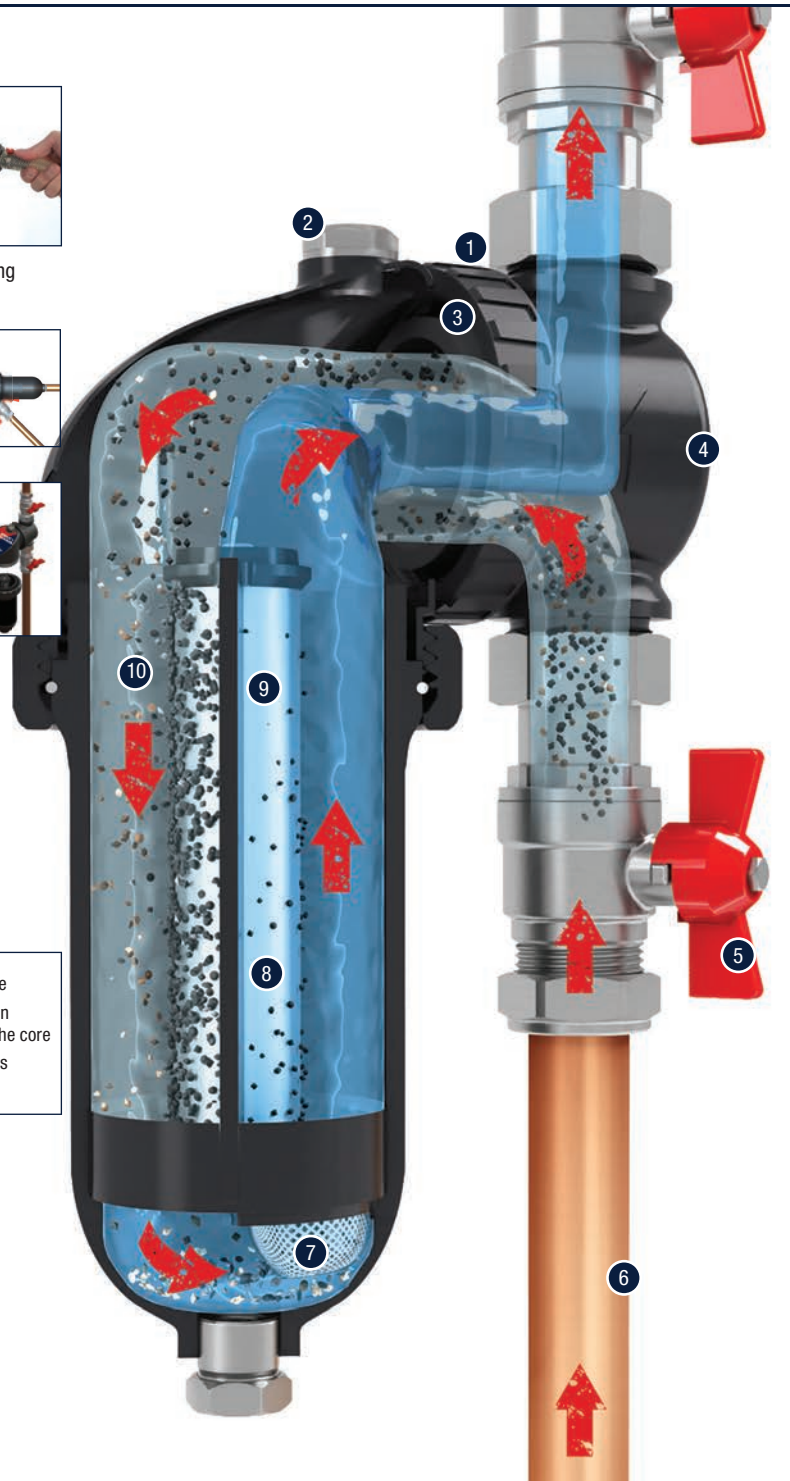

- 7 No block mesh guard – removes scale and other non-magnetic debris

- 8 Patented magnetic circuit – ensures system cannot block

- 9 Patented magnetic core – large magnetic surface area

- 10 Dual flow technology – maximises dirt collection performance by ensuring that magnetite is exposed to the magnetic zone for longer

3 GREAT VALUE OPTIONS

BoilerMag Filter

Contains:

- 22mm or 28mm Filter

Part Nos. BM22 or BM28

BoilerMag Filter & Chemical Pack

Contains:

- 22mm or 28mm Filter
- 500ml BM1 Inhibitor
- 500ml BM3 Cleaner

Part Nos. BM22/CP or BM28/CP

BoilerMag Part L Pack

Contains:

- 22mm or 28mm Filter
- 500ml BM1 Inhibitor
- 500ml BM3 Cleaner
- 15mm Electrolytic Scale Reducer

Part Nos. BM22/PLCK or BM28/PLCK

TRY OUR SYSTEM TREATMENT RANGE

BM1 INHIBITOR

**Premium protection
against corrosion and
scale**

- Borate and phosphate free
- Compatible with all leading boiler types
- Available in 500ml, 5,10 and 23 litre containers

BM3 CLEANER

**Fast acting formula
for effective system
flushing**

- Low toxicity, environmentally friendly
- Compatible with all leading flush equipment
- Available in 500ml, 5,10 and 23 litre containers

ELECTROLYTIC SCALE REDUCERS

- Minimises limescale deposition
- Available in 15 and 22mm sizes

BOILERMAG WATER TEST KITS

- Dosage level test strips
- Laboratory analysis kits
- For analysis and treatment diagnosis

BOILERMAG FILTERS FOR ALL TYPES OF PROPERTY

- For medium sized commercial, retail or large residential properties
- Fits standard 1½" BSP connections

- Heavy duty filters for large industrial heating and cooling systems
- Available to suit 2", 3", 4", 6", 8", 10", 12" port sizes
